

6 competition

Team to
pit skills

THE eighth leg of the RHB-The Star Mighty Minds Challenge 2015 will be held at the Stadium Negeri in Kuala Terengganu on May 23.

Jointly organised by Star Publications (M) Bhd and RHB Banking Group, the competition challenges students on their knowledge of current events and the ability to build an innovative model based on a theme.

It helps if they have oratory skills and a good dose of creativity.

The competition is for both lower secondary and upper secondary school students.

There are four categories in the state challenge – multiple choice questions, hands-on

challenge, oral presentation skills and buzzer quiz.

The hands-on challenge is where teams design a model based on a given theme, which will be posted in the *StarEducate* pullout of *Sunday Star* (see below) and on the RHB-The Star Mighty Minds microsite (www.thestar.com.my/mightyminds).

The champions of the state challenge in both categories will then represent their respective states in the National Challenge to be held in the Klang Valley.

Hands-on challenge

TEAMS (comprising three students each) will be given one hour to build an original, innovative model in response to the themes below.

The themes may be interpreted literally or figuratively, but should be aimed at resolving a problem in our society. The best models will offer a positive impact either on an identified customer or on the environment.

Since each team is required to explain their respective model to the judges, be proactive and brush up on your oral presentation skills as well.

On the day of the competition, only the top 10 teams for each category in the Multiple Choice Question Challenge will be eligible to take part in the hands-on challenge. It takes effort, talent and passion to win but preparation is just as important.

On completion of the hands-on challenge, teams will be given three minutes to present their model to the panel of judges. Team members will have one minute each.

The models will be judged based on the following:

- * Understanding of the theme and how it impacts society;
- * The potential benefits of the model and its marketability;
- * The creative features of the model.

Teams will also be judged on the delivery style and language during the oral presentation.

Lower Secondary

Theme: Precious Playgrounds – Promoting marine diversity by protecting our coral reefs.

TERENGGANU

Upper Secondary

Theme: Slick – An innovative approach to clean-up efforts following major oil spills.

Participants in both the Lower Secondary and Upper Secondary categories will be provided with a standard tool kit for each hands-on challenge.

You will be provided with a standard tool kit containing the following:

Two pairs of scissors, 1 pen knife, 1 tube of superglue, 1 tube of common glue, 1 roll of masking tape, 1 roll of cellophane tape, 1 roll of double-sided tape, 1 long ruler, 1 screwdriver and 3 pairs of gloves.

In addition, you will be provided with simple, disposal materials that you may use to construct your model.

Be prepared to be innovative and think on your feet when creating your model as some of the items may need to be substituted.

The materials you may be provided with include:

Mounting board (50cm x 38cm), coloured paper (36cm x 36cm), elastic bands, popsicle sticks, empty mineral water bottle (500ml), small plastic containers with lids, square of fabric, piece of netting, paper clips, short length of string, straws, compact disc, beads and balloon.

* You will not be allowed to bring in any material or tools of your own.

PERSONALISED LEARNING

An Education Custom Fit For You.

If you want the flexibility and ease to include learning around your already busy work and life schedule, then AeU is your ideal choice. We give you control of what, where, when and how you want to learn.

You have the flexibility and accessibility to pursue your degree with greater control over your personal priorities. The bottom line is you get an education that can adapt to your needs. It's relevant, practical and will set you on a path to achieve your career goals.

With personalised learning, you're in the driver's seat - always moving forward and in greater control of your education.

Are you ready to get personal?
